**Il valore della scelta**

## UNI/PdR 125:2022 certification

Aspiag Service S.r.l. chose to work towards UNI/PdR 125:2022 certification as a natural evolution of its commitment to people. The value of inclusion and equality is an integral part of the corporate culture and is applied in practice in the selection, training, management and enhancement of human resources. With more than 9,000 employees, the promotion of gender equality is a strategic lever for sustainable development, and for boosting organisational well-being and competitiveness in the company. The adoption of a gender equality management system enables the company to structure measurable actions and objectives, while ensuring transparency and on-going improvement in the area of diversity & inclusion. The initiative is part of the company's broader ESG commitment, which integrates environmental sustainability with corporate social responsibility, strengthening the link with the areas and communities Aspiag Service S.r.l. operates in. In this sense, the company seeks to enhance the diversity present in the roles operating in the organisations and to maintain processes able to empower women in business activities.
